Accomplishments, Activities, Anticipation

By Heather Koss

There are many eye pleasing treasures as you travel Manitoba Highway #83 North from Russell.

The RM of Shellmouth-Boulton does not have to boast about its natural unique beauty. Lucrative farm lands grace the roads leading to a breathtaking valley view from the Asessippi Ski Hill, Shellmouth Dam and Lake of the Prairies. Forty miles of lake show off natural beauty in its finest form along the Assiniboine and Shell River valley, enticingly you to fish, water ski, build a cottage or camp for a day. There are unsuspecting rewards of quiet refuge such as Asessippi Park and picnic areas to give some rest and relaxation from a busy lifestyle.

Shellmouth, a village in a scenic valley is notable for its Heritage United Church and a marked old bridge sight. Settlements are preserved around Lenard, the St. Elijah Church, Paulencu House, providing insight in to Romanian Culture. The Inglis Heritage Elevators capture the curiosity of the youth, while the seniors relive the days when these "Gold Vaults of the Prairies" were the hub of the town. Skinners Arboretum trails are a welcome blend of education and beauty. In Inglis and scattered through out the area you find interesting themes and various locations to fit almost any taste in the bed and breakfast accommodations available.

The past generations definitely provided the basis for the thriving continuation of the municipalities. The present generation has the desire and insight to preserve, diversify and constantly be on top of opportunities they may see, to keep the story of the RM of Shellmouth-Boulton updated and on going.

We invite you to celebrate with us the **accomplishments of the past**, the **activities of the present** and the **anticipation for the future**.

Homecoming 2008 – August 1, 2 & 3
